Dear colleagues and friends,

The Society of Medical Biochemists of Serbia has the pleasure to welcome you to the 12th EFLM Symposium for Balkan Region being held under the title **»Harmonization of total process: Influence of the extra-laboratory phases»**.

European Federation for Clinical Chemistry and Laboratory Medicine (EFLM) appointed Belgrade (Serbia) and the Society of Medical Biochemists of Serbia as the organizer of educational symposia for clinical chemists in the Balkan region and as a result of these decision eleven symposia have been organized thus far very successfully. The 12th EFLM Symposium for Balkan Region is organized under the auspices of the International Federation of Clinical Chemistry (IFCC), Balkan Clinical Laboratory Federation (BCLF), Ministry of Education, Science and Technological Development of Serbia and Ministry of Health of Serbia.

The Society of Medical Biochemists of Serbia as a member of the IFCC and EFLM greatly appreciates the role it has in the continuing development of our discipline according to the IFCC and EFLM mission and the Strategic Plan.

Special thanks go to Zorica Šumarac, who helped to design the program of this symposium by suggesting topics and lecturers and who enabled the laboratory professionals in the Balkan region and our country to learn about this very important area of laboratory medicine.

The 12th EFLM Symposium for Balkan Region is organized on May 26 and 27, with participation of the European and domestic specialists in field of extra-analytical phases quality management, rational use of laboratory tests, harmonization of pre-analytical phase improving the impact of laboratory tests, management of critical values in laboratory medicine and monitoring performance in pre-pre and post-post analytical phases. Finally, results of a regional survey about the level of communication between clinicians and medical laboratory are going to be presented.

On behalf of the Society of Medical Biochemists of Serbia and the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM), we would like to welcome all our distinguished lecturers and thank them for their participation in the 12th EFLM Symposium for Balkan Region. Their presence gives very high recognition and prestige to this Meeting, which will influence the development of clinical chemistry and laboratory medicine in the Balkan region.

Special thanks are addressed to the participants, whose presence is the main stimulus and only reward for those of us who have worked hard in organizing this meeting. We would like to thank all the industrial companies and local representatives participating in the exhibitions and sponsoring the organization of the Symposium.

We hope that the EFLM Symposium in Belgrade will continue its successful progress like in previous years, striving to focus on the new data in the field of laboratory medicine.

To all of you, we wish that you may enjoy these days of science, friendship and hospitality. We hope you will have a happy and pleasant stay in Belgrade.

To all of you, we wish that you may enjoy these days of science, friendship and hospitality. We hope you will have a happy and pleasant stay in Belgrade.
